

# MEGTEC ENVIROMONITOR® Environmental Monitoring & Reporting System

*Eliminate "conventional" Paper Chart Recording and meet Regulatory Requirements with this Custom Reporting and Monitoring System.*

Monitor Mandated Parameters of your Equipment at Locations Around the World from your Desktop

If you are a Title V facility or are affected by a MACT regulation, you may be required to monitor, record and report items including:

- Combustion Chamber Temperatures
- Exhaust Temperatures
- Drive Speeds
- Duct Pressures
- Damper Positions
- PTE Data

May 2007

The MEGTEC Enviromonitor provides a cost effective method of electronic monitoring of regulatory or other data points in an encrypted format, allowing for regulatory approved reports.

Regulations require enhanced monitoring and reporting to show assurance of compliance. MEGTEC ENVIROMONITOR® provides a method of reporting key parameters in a simplified format.

Highly reliable and secure data storage is achieved with large capacity flash memory technology for both internal and removable storage media. A USB flash drive can now be used to transfer data to your PC.

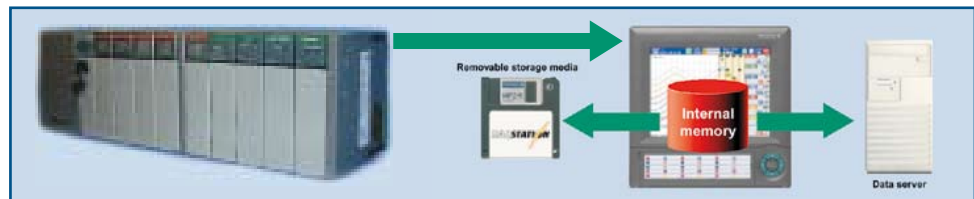

The MEGTEC ENVIROMONITOR® system provides immediate advantages for your day-to-day operations.

### Reliability

- Dust and waterproof front panel
- Internal non-volatile memory with error correction function
- Front door lock and login functions
- Flexible and intuitive display modes

### Versatility

- Direct-sensor input-thermocouples, RTDs and voltages
- TCP/IP and FTP protocol
- Modbus or Fieldbus connection from a compatible PLC

### Networking Technology

- Instantaneous email alarms
- Emailed data reports
- Monitor alarm history and real-time display screens using common web browsers

### Additional MEGTEC Products and Services

- Catalytic and regenerative thermal oxidizers
- Flotation and roll support dryers
- Engineering services for oxidizer and dryer rebuilds
- Heat recovery systems
- Preventive maintenance programs
- Parts and service
