Old S5 Siemens S5 PLC

SAIA PLC Upgrade

Old HMI Megamat

Megaview II 10" Color Touch-screen Interface Kit

Due to the obsolescence of the Siemens S5 PLC, it is necessary to replace the control system with the SAIA PLC.

New features with upgrade:

- HMI MEGAVIEW II 10" color touch screen interface
- Offers troubleshooting capabilities such as:
 - Monitoring of digital and analog input/output
 - Monitoring of data points
 - Monitoring of roll consumption
 - Fault log
 - Splice report log

The kit includes:

- Complete SAIA PLC pre-wired and mounted to panel
- Complete MEGAVIEW II touch screen mounted to panel for direct replacement

***In order to help us offer you the correct upgrade kit for your machine, please supply the following information: Machine type • Serial number • Manufacturing year**
